

# Semi Rigid Duct

Alpine Ventilation carries a wide range of expandable aluminium semi rigid duct for general ventilation purposes. Semi rigid duct holds its shape and diameter to provide unimpeded air flow and greater efficiency. The range is particularly popular for dryer, rangehood and general air extraction. Select from 60mm to 350mm internal diameter. All expand to 3 metres in length. Custom sizes are available on request (dependent on quantity and timing).

- + 0.15mm thick aluminium construction
- + 4-zero fire rated to AS1530.3
- + Complies with AS1668.1 when installed correctly
- + Temperature rated from -20°C to 150°C
- + Non-insulated
- + Shrink wrapped in plastic for additional protection
- + Compliant with AS4254.1 – tested by AWTA

## Installation tip

Duct is fragile when being expanded. Expand ducting carefully with 2 people, starting at the middle and working to both ends. This will maximise length and minimise the chance of tearing.
