

# Egg Crate Grilles

Alpine Ventilation has a range of snap-in egg crate grilles for air extraction. They are a great alternative to metal egg crate grilles. They are both easier to install – and the face can be clipped out and rinsed under the tap to be kept clean. Additionally they include a butterfly damper to prevent backdrafts.

- + Low profile, contemporary style
- + White UV stabilised ABS construction
- + Butterfly damper to prevent backdrafts
- + Fast, easy snap in installation (4 plaster clips)
- + 75mm neck for attaching flexible foil or semi rigid ducting
- + Cutting template provided
