

Round Flange Adapters

Alpine Ventilation has a range of round flange adapters in 3 sizes. These are used for an application where there is no neck to connect to, using the double sided adhesive foam ring to attach adapter to surface. The 100mm size is generally used for clothes dryers and the 125mm and 150mm sizes generally used for rangehoods.

- + 1.75mm galvanised steel construction
- + Non-flammable double-sided adhesive foam ring
- + Compatible with semi rigid or flexible foil ducting

Code	Description	Internal Diameter (mm)	Height (mm)	Carton Qty
