

Mushroom Cowl Range

Alpine Ventilation has developed a range of Aluminium Mushroom Cowls. These come in a range of sizes – 100, 125, 150, 200 and 250mm. Cowls are designed to fit over galvanised steel pipe and are used with flashing for the venting of rangehoods and exhaust fans via the roof. All have 2mm aluminium mesh to ensure BAL-40 compliance.

- + Contemporary design in full aluminium construction.
- + Compliant with the fire rating requirements of AS3959-2009 up to BAL-40
- + Includes steel mesh for protection against insects or rodents
- + Provides for maximum protection against weather, wildlife and rust.
- + Connects to steel pipe. Affix with silicone, glue or rivets.
